

## **In Loving Memory of Ervin Lebovics**

[12 May 1928 – 23 April 2025]

With deep sorrow and enduring love, we announce the passing of Ervin Lebovics, who left this world peacefully on 23 April 2025 at the age of 97. A proud son of Temeswar, Ervin was born on 12 May 1928 and carried the spirit of his hometown with him throughout his life.

A brilliant electronic engineer, Ervin immigrated to Israel in the early 1970s, where he built not only circuits and systems, but a life rooted in integrity, resilience, and quiet strength. Fluent in several languages, Ervin was a bridge between cultures and generations, known for his sharp intellect, dry wit, and an enduring curiosity about the world.

He was a devoted husband and a loving father to three children, whose lives have been forever enriched by his wisdom, warmth, and example. Beyond his professional accomplishments, Erwin had a deep passion for music and history—two realms where he found beauty, meaning, and connection.

Those who knew him will remember his thoughtful conversations, his steadfast moral compass, and the way his eyes lit up when listening to a well-composed piece of music or recounting a historical event with clarity and nuance.

Ervin Lebovics lived with grace, humility, and quiet brilliance. He leaves behind a legacy of love, intellect, and dignity. He will be deeply missed and lovingly remembered.

May his memory be a blessing.
