

## "Lifetime Achievement Award" decernat inginerului George Kun din Timisoara de catre Asociatia Inginerilor Romani din Canada

In their recent Annual Gala Dinner, the AREC, (Association of Romanian Engineers in Canada) decided to present a few engineers with a "Lifetime Achievement Award" in a special ceremony. A diploma and a crystal engraved plaque, were handed to the selected individuals, who were found to have met all or most of the following criteria:

1. Graduated from a five year Engineering program from a university in Romania
2. Obtained the "Professional Engineer" designation in any province of Canada and is a member of such an organization.
3. Has been employed for at least 25 years with a Canadian or USA company in an engineering capacity.
4. Has held in his /her career engineering managerial positions with higher levels of responsibility and decision making impacting the progress of a company or a business.
5. Worked for large international companies in a senior engineering or business role
6. Helped, promoted or hired newer Romanian engineers.

I was one of the selected people for this award, and I actually met all the criteria. Here are some pictures from the ceremony.

Recent, cu ocazia Galei Anuale a AREC-ului, (Asociatia Inginerilor Romani din Canada), asociatia a decis sa confere un tribut pentru realizari de o viata intreaga unor ingineri romani din Canada. Persoanelor selectate li s-a inmanat o diploma si o placa comemorativa de cristal in decursul unei ceremonii. Criteriile de selectie pentru calificare, au fost urmatoarele:

1. Absolvirea unei facultati ingineresti cu un program de 5 ani, in Romania.

2. Sa fi devenit membru al Asociatiei Inginerilor Profesioniști din orice provincie din Canada, si sa fie un membru activ al asociatiei
3. Sa fi fost angajat pe cel puțin 25 de ani de firme canadiene sau americane intr-o functie inginereasca
4. Sa fi avut functii de responsabilitate inginereasca manageriala, cu nivel de raspundere ridicat care sa fi avut o influenta pozitiva in progresul firmei.
5. Sa fi lucrat si la firme mari cu afaceri internationale, intr-o functie de responsabilitate inginereasca sau de business.
6. Sa fi ajutat, promovat sau angajat ingineri romani veniti recent in Canada.

Eu am fost unul dintre cei alesi pentru a primi aceste onoruri, si asa s-a nimerit ca am implinit toate criteriile. Trimit cateva poze de la ceremonie.
