

George Kurti Plohn @ 87

Happy birthday!!! When I looked at the board photo behind you I thought I saw the number "110" and I thought - Is George really 110? Maybe that's why he knows so much!

But then I realized it was the exclamation points indicating how excited everyone is about your birthday.

You certainly do make life at the Esplanade more enjoyable and forward-looking for everyone and you deserve all the pampering. They are lucky to have you.

Keep aging gracefully

All the best
