The Celebration of the Life of Peter Hollander (DVM)

Peter's family and friends gathered on Sunday, March 25, 2018 to honor and remember him, to celebrate his life and to bid him farewell.

Peter's childhood friend, George Liebermann assumed the role of master of ceremony at the request of Peter's wife, Hajnal. With the insight of a lifetime, George went through the milestones of Peter's life and remembered him fondly in a moving personal account of true friendship.

Peter's personality and love of his family was further evoked by his son Robert and daughter Ingrid in their respective speeches. Reminiscing of small tender moments and big life lessons that guided them in their life paths, Ingrid and Robert made their Father proud!

George ended the ceremony by reading the Mourner's Kaddish. (there was not a dry eye in the house...)

Hajnal did not speak, at the request of the children, as they were afraid that it will be too stressful for her.
